

ML EMPOWERMENT FOUNDATION

Chapters Program

*Empowering the next generation through
AI education, innovation, and impact.*

Chapters Program Information Packet

Rev. July 2026

Welcome to the ML Empowerment Foundation Chapters Program!

We're building a global network of student-led chapters dedicated to making artificial intelligence education more accessible and helping young people use technology to create meaningful change in their communities.

Through our Chapters Program, students and community leaders can bring AI education, hands-on projects, workshops, and opportunities to their schools and communities — with the support and resources of ML Empowerment Foundation.

What Are We Building?

One organization. A global community. Thousands of students empowered through AI.

We believe access to AI education should not depend on where someone lives or what resources their school has. Our chapters give motivated students the opportunity to become leaders, educators, and innovators while helping others discover the possibilities of AI.

What Is a Chapter?

An ML Empowerment Chapter is a student- or community-led group that works to expand access to AI education and innovation locally. Chapters can organize workshops, build projects, host events, participate in competitions, collaborate with organizations, and create their own initiatives based on the needs of their community.

Ready to make an impact?

Start an ML Empowerment Chapter and bring AI education to your community.

Chapter Types

- School: for high school/secondary school clubs
- University: for college or university organizations
- Community: for local groups outside of a school setting

Who Can Start One?

Any student or community leader who wants to bring AI education to their community can apply to start a chapter.

Formats

Chapters can run in-person, virtual, or hybrid, though in-person is preferred.

What Chapters Do

- Host workshops, events, and hackathons
- Build AI projects
- Join competitions and challenges
- Partner with local organizations
- Create their own initiatives

Every chapter looks a little different. What matters is the mission: making AI education more accessible.

Flexible by design.

Run your chapter the way that fits your school or community best.

- ML Empowerment curriculum and workshop materials
- Support for hosting events and hackathons, including help finding judges and sponsors for your chapter's hackathons
- Chapter branding and logo use
- Certificates for members and leaders
- Access to ML Empowerment competitions and challenges
- Connection to a network of other chapters
- Recognition on ML Empowerment social media

Real leadership experience

that stands out on resumes and college applications.

Why It Matters

Every resource we provide is built to make it easier for you to lead: less time spent figuring things out from scratch, more time actually running events, teaching AI concepts, and growing your community's access to technology.

Starting Your Chapter

- Submit your application
- Get approved
- Build your leadership team (minimum 3 members to start)
- Recruit members
- Launch your first event

Running Your Chapter

- Hold regular activities (workshops, hackathons, project meetups)
- Use ML Empowerment resources
- Engage your community
- Keep your leadership team active
- Report your impact: submit photos and numbers from your events, and get featured on our social media
- Submit a Monthly Chapter Progress Report ([link below](#))

Leadership Positions

- President
- Vice President
- Events & Outreach Lead

Chapters may add up to 5 additional roles as needed (8 leaders max total).

Support at every step.

Our team is here to help you launch and grow, not just approve you.

Bring AI Education to Your Community.

Start an ML Empowerment Chapter and help make AI education more accessible to the people around you.

As a chapter leader, you'll build real leadership experience, grow your network, and help students in your community discover what's possible with AI. It's a chance to lead something that actually matters, while building something that stands out on your resume and college applications.

Ready to Apply?

- Apply to Start a Chapter: [Download the MLE-1 Form](#)
(download the form before filling it out)
- Submit your Monthly Progress Report: [Jotform Link](#)
- Email: mlempowerfdn@gmail.com
- Instagram: [@mlempowermentfoundation](#)
- Scan to apply:

Every chapter starts with one person.

Why not you?
